

# Company Fact Sheet

## Who we are

**We are a data-driven company that's engineer-focused.**

Why? Because today every business is powered by modern, digital experiences, and everyone expects them to be fast, easy, and secure.

The quality of the digital experiences you deliver—and the success of your business—depends on empowering your engineers with a data-driven approach to planning, building, deploying, and running great software

New Relic gives engineers the platform and tools to take a data-driven approach to every stage of the software lifecycle.

We help them go beyond surface-level data and fill in the gaps, confirm the guesses, and overcome assumptions and opinions that take engineers out of their creative flow every day. Now they can improve mean time to resolution (MTTR), planning cycle times, change failure rates, and release frequency.

This helps millions of engineers at companies like

Adidas, Runtastic, American Red Cross, Australia Post, Banco Inter, Chegg, GoTo Group, Ryanair, Sainsbury's, Signify Health, Topgolf, and World Fuel Services (WFS) improve uptime, reliability, and operational efficiency to deliver exceptional customer experiences that fuel innovation and top-line growth.

Empower your engineers with the data they need to measure, improve, and grow your digital business. New Relic means data for engineers.

**New Relic empowers engineers to make decisions with data, not opinions.**

- › **All telemetry on one secure cloud**—metrics, events, logs and traces—no separate databases.
- › **One price per user** with no-brainer \$.30/GB ingest. No confusing bundle of SKUs.
- › **First usage-based consumption pricing** for easy scaling and 3-7x more value.
- › **Workflow integration** for fast onboarding and better visibility.
- › **AI assist** at every step to get to the root cause faster.

## OUR MISSION

Help every engineer do their best work every day—using data, not opinions—at every stage of the software lifecycle.
